Hi Mr. Stanchik,

Thank you for your explanation.

I understand the evaluations that are needed for D [REDACTED]. That is what I had asked for when I made an appointment for him.

Michelle Merritt from DCF asked me and Tolga to do an evaluation for ourselves. You also brought it up during the hearing on January 4th. I was looking for a psychologist to make an appointment and realized I need to have a reason to be evaluated. Could you please let me know the concerns you have?

You are more than welcome to meet with D [REDACTED]. I will definitely keep you updated with his evaluation process.

Thank you,

Xiaolei

Most practitioners do not require more than that to begin the process. If the psychologist you choose has questions I can speak with him (provided you have signed a release allowing me to do so.
