Additional Notes:

PLANNED ACTION: Use this space to inform local DCF staff of any action steps being taken with the student/family to correct the attendance problem which may or may not require DCF participation.

We have made multiple attempts to engage the family in the development of an attendance plan, but they have been unwilling to have those conversations.

BACKGROUND INFORMATION: Use this space to briefly describe in general terms any circumstances in the home which relate to student's attendance problems. (i.e., unemployment, illness, divorce, death in the family, etc.)

The family believes that past concerns at his previous elementary school have followed him here. They believe that his emotional well-being is at risk if they were to send him to school.

SPECIFIC CONCERNS: Use this space to briefly describe specific problems related to this child.

I believe that D■■■■ is not receiving any form of education currently and is not having his needs met socially, academically, or emotionally.
